- Cyber security profession will not disappear
- Cyber security will never be solved

	Old technologies	New technologies
Old attacks		
New attacks		

- Number 1 cyber-centric nation
- Number 1 cyber-vulnerable nation

- We need cyber to make the 21st century another American century
 - ❖ Net-centric military
 - ❖ Intelligence
 - ❖ Smart grid
 - ❖ Electronic health records and healthcare
 - ❖ Smart traffic control: air, roads
 - ❖ etcetera

- We need smarter cyber security to make this happen
