CS 6393/CS 4593
SPRING 2019
PROF. RAVI SANDHU
PROJECT GRADING RUBRIC

Each project will be graded on the following aspects:

- Q: Quality of slides and presentation

- C: Content completeness and relevance

- O: Content originality

- R: Class response

- T: Time management of presentation

Grading will be on a 3-point scale for each aspect as follows:

- 1: Below the expected level for this class

- 2: At the expected level for this class

- 3: Above the expected level for this class

The overall score is not to be interpreted as a %

Each project is intended to be a teaching as well as a grading exercise. Grades will be assigned after all presentations are completed.

2-person projects will get a single grade.
