Subject: Welcome back post weather closure

Dear Class:

The entire state of Texas has undergone an unprecedented weather event. I hope all of you were able to stay safe and warm during the past week, and did not suffer any lasting harm. If you need some special help in dealing with this course please do reach out to me and I will do whatever I can to help you get your semester back on schedule.

As you probably know the semester has effectively been extended by one week so the last week of class is now Friday May 7, 2021. Our class schedule has been adjusted accordingly. In particular the last day for virtual attendance is now extended to Friday May 14, 2021.

I will be posting assignments very soon so please look out for an announcement on this shortly.

I have received many fewer virtual attendance responses than I had expected at this point of the semester. Please send these. It may be easier to do it one module at a time. I would particularly like to hear from those students who have not even given one virtual attendance response so far.

Wishing you all the best for the rest of the semester!
